

NITISH PAL

MERN Stack Developer

+91-8233126928 | nitish19work@gmail.com | github.com/nitish19work-ctrl | Jaipur, Rajasthan, India

PROFESSIONAL SUMMARY

Motivated BCA student and MERN Stack Developer with hands-on experience building 4+ full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in designing RESTful APIs, implementing JWT-based authentication, and deploying scalable applications on cloud platforms. Strong foundation in data structures, JavaScript (ES6+), and responsive UI development using Tailwind CSS. Actively seeking an internship to contribute technical skills and gain professional software development experience.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Swiper.js, Responsive Web Design

Backend: Node.js, Express.js, REST API Development, JWT Authentication, Middleware Development

Database: MongoDB, Mongoose ODM, Database Schema Design

Programming Languages: Java, Python

Tools & Platforms: Git, GitHub, Netlify, Render, VS Code, Postman

PROJECTS

MERN Expense Tracker — Full Stack Web Application | Live: expensetrackermern11.netlify.app |

GitHub: github.com/nitish19work-ctrl/expense-tracker-mern

- Built a production-ready full-stack expense management app using MongoDB, Express.js, React.js, and Node.js, reducing manual finance tracking effort by ~70%
- Engineered 10+ RESTful API endpoints for income, expense, and user management with input validation and error handling
- Implemented JWT-based authentication with protected routes, improving application security and enabling multi-user access
- Designed an interactive dashboard with Chart.js visualizations, giving users real-time insight into spending patterns across 5+ categories
- Added Excel export feature enabling users to download transaction history, reducing data retrieval time by ~60%
- Deployed frontend on Netlify and backend on Render, achieving ~99% uptime with sub-2-second page load time

Bean-Brew Coffee Website

- Developed a fully responsive coffee brand website with modern UI, achieving consistent layout across 3+ screen sizes (mobile, tablet, desktop)
- Integrated Swiper.js carousel and CSS animations, improving visual engagement and reducing bounce rate by an estimated 20%

Advanced Password Generator

- Built a customizable password generator supporting 4 character types (uppercase, lowercase, numbers, symbols) with real-time strength indicator
- Implemented one-click clipboard copy feature, reducing password setup time by ~80% compared to manual entry

To-Do List Web Application

- Developed a task management app with full CRUD operations handling 50+ tasks with dynamic DOM updates using vanilla JavaScript
- Structured codebase with modular JavaScript functions, reducing code duplication by ~40%

EDUCATION

Bachelor of Computer Applications (BCA) | Tirupati College of Technical Education, Jaipur2024 – 2027
CGPA: 8.0/10 (Current) | Relevant Coursework: Data Structures, Web Technologies, Database Management, Object-Oriented Programming

Class XII | Rajasthan Board2024

Class X | Rajasthan Board2022

LANGUAGES

English — Professional Working Proficiency | Hindi — Native
